FCA Annual Meet Scottsdale, AZ **By Jim Weed**

The Ferrari club annual get-together is often my highlight each year. Sure, Cavallino brings out the rarest and finest in restored Ferraris. Monterey also has its share of beautiful and exquisite Ferrari examples but it is a club meet that brings out a different group of Ferraris.

There is a certain enthusiasm that colors the event. Win or lose everybody is there to have a good time and share the experience. There is always some pressure to see how your car compares to others but at the end of the day it doesn't matter, the goal is to share the passion.

This year's meet was put on by the FCA Desert Region in beautiful Scottsdale, Arizona. While held much later in the year than most annual meets, the Arizona weather cooperated with perfect temperatures and light breezes. They claim it's always like this.

Of course, our production schedule makes it difficult to get away early on a printing week and Tuesday printing would mean a Monday mailing instead of Friday. We left Atlanta Wednesday afternoon and arrived in Phoenix too late to do anything but crash in the hotel and look forward to Thursdays concours.

A short drive from the hotel brought us to the Scottsdale Sports Complex. Arizona is brown and rocky with scrub brush and cacti; it is desert, so my expectation of Ferraris lined up on green grass was shattered when we saw Ferraris filling the soccer field.

Time for the *Ferrari Market Letter* staff to get to work. Cathy is off, clipboard in hand to gather serial numbers. Linda begins to take the first of eight hundred or so pictures for documentation. And I get to schmooze with owners and offer insight or advice about Ferraris or the market.

I start with the first row showing early cars. There

is a 212 Inter with a Ghia body, S/N 0191 EL. First shown at the 1952 Paris Salon then delivered to President Peron of Argentina. It has been restored to perfection; while typical of early Ghia styling it is rather plain but it makes up for it with a striking yellow and black two-tone paint scheme.

I spy a Ferrari being judged and find Drew Alcarzar calmly answering questions by the judging team as they inspect his black 250 GT/L. His Lusso was one of four shown.

There was a good selection of classic Ferraris. 275 GTBs in all different forms: short nose, long nose, 2-cam, 4-cam and steel and alloy bodies. There was even one of twelve special competition 275 GTB/Cs brought by David MacNeil.

330 GTCs, 365 GT 2+2s, Daytonas and Dinos were all represented. One of the interesting trends I like is the celebration of Ferraris in non-red colors. There is no doubt that Italian cars and Ferraris, especially Ferraris, look best in red, but not all were made that way.

Bill Munro had his white 330 GTC. Dennis Pobiak brought a 275 GTB/4 in fly yellow which is a great color for that body shape. Pobiak also had a Daytona Spyder painted in Giallo Solare which is a pale yellow. It really was an unusual color and I would bet the only one made in that color and it must be seen to be appreciated.

Since I am on unusual colors, there was a 512 BBi brought by Scott Oshry that was painted in Verde Germoglio. Before you go to Google to see what it looks like, it translates to sprout green. I would call it closer to an electric lime green. Probably a typical Lamborghini color but it works on this Boxer. It certainly stood out among the other Boxers on the field.

There was a 599 GTB in Rosso Mugello that was striking in the bright sunshine. Another 599 GTO was in Argento Nürburgring with a yellow stripe across the hood, reminiscent of a Francorchamps 250 GTO.

The Tailor Made program allows for incredible personalization and there was a Grigio Silverstone 488 Spider on the field. While the exterior color is pret-

ty tame the interior was yellow. The yellow was not bright in-your-face yellow but more of a subtle mustard yellow. Yellow seats with door panels and all the other interior accents in grigio. I know it sounds hideous but the simplicity of two colors allows Eduardo Venegas to own a unique Ferrari.

While the Tailor Made program allows a wide variety of colors there was one F12tdf that stood out. The aluminum bodywork was devoid of any color. The body was clear coated directly over the aluminum creating an interesting look into what every modern Ferrari looks like just before it heads to the paint booth.

There was much to see; I've only hit the highlights as I saw them. There were judges inspecting, conversations with owners and other enthusiasts; I believe I can easily say a good time was had by all.

The evening activity was cocktails and hors d'oeuvres at the Penske Museum. What better place to enjoy the company of other Ferrari enthusiasts? Located in the Penske Ferrari dealership, racecars from many of Penske's successes were displayed. While the open bar was popular the promise of morsels to eat was not. Small trays of tidbits did not make it far from the kitchen doors before vanishing.

Afterward we headed to a steakhouse for dinner which was the plan for most I talked to.

Friday was track day. Apex Motor Club is a private track located just outside Maricopa, Arizona. About 20 miles southwest of Phoenix proper it is definitely in desert country.

Apex Motor Club offers future garages with clubhouse. The track will be built in several phases as memberships are sold. Ultimately it will offer a helipad to quickly get from the big city and a karting track to keep driving skills honed.

The first phase track is complete and features a challenging 2.27 miles of asphalt with wide runoff areas and gravel traps. The grid area is shaded and is pleasant under the warm sun.

We arrive to find a large number of Ferraris ready to tackle the well-thought-out twisty track. Since the track is new there is uncertainty because no one has had the opportunity to drive on it. It was a great equalizer.

There were instructors available to show the correct lines though the twelve turns. The front straight was plenty fast, even with the chicane. The turns are very technical with many late apexes. Turn seven is a 'fishhook' with the apex so late you might think it

would never appear.

The Ferrari participants were mainly 348s and newer. Clearly the sounds of 458s and 488s are different at full song but both were magical to hear shifting throughout each lap.

They were very different sounds from the two old cars present. One was Daytona S/N 14235 that was soldiering through the turns. Clearly it was being driven at about 8/10ths and the owner was having a ball. Watching the handling difference between the modern cars and the Daytona makes one realize how far technology has evolved.

The other was Tefft Smith in his replica 250 TR, created from a 250 GTE. While not a real Testa Rossa it is still a real Ferrari with Ferrari components. You may remember my ride in Smith's replica GTO at Watkins Glens last year so this year he offered a ride in the TR.

What a great way to experience this track. While the TR is fast it is no modern car. Through several laps modern Ferraris pass us and smoothly negotiate the turns. The TR provides a different driving experience with old world slides and cross-correction through the turns. Skinny tires and soft suspension necessitate a different type of driving style.

Friday evening dinner was Western theme with everyone encouraged to wear their finest cowboy attire. Hats were provided; I wore my boots.

The group was bused out to the ranch where rows of picnic tables and stations with southwest appetizers awaited.

Quesadillas and chips with salsa and guacamole along with an open bar created friendly lines as we talked about the concours and track. A country band with the requisite fiddle serenaded the crowd.

Dinner was served with some of the best beef ribs I've ever tasted. They were meaty and fell off the bone. Add some potatoes, vegetables and cornbread; it was even better than it sounds.

As dinner was winding down it was time to do a little dancing. It was fun to be in a group learning line dancing. Andy Fish and Debbie Renolds (yes, her real name) were cutting the rug with some Texas two-step.

Prior to the Saturday evening banquet a new SF90 Stradale was unveiled. Livered in bright yellow it shows the direction Ferrari is moving with its latest plugin hybrid.

In 2020 the annual meet will be in Canada. The Canada East Region will host the event in Mont-Tremblant. November in Phoenix was perfect; I imagine July in Canada will be just as nice. See you there.

FCA Pleasure Drive By Cathy Roush

For a change I didn't make it to the track at this annual meet. I participated in the competitive rally on Saturday but we didn't win. 'Nuff said.

On Friday I was fortunate to be the passenger with David Varwig, from Illinois, for the pleasure drive from Scottsdale to Prescott. He had rented a Cadillac CTS and it was quite a luxurious ride. Fortunately we are from the same generation with the same taste in music. We spent about six hours in that car.

I'd never been to Arizona so I didn't know what to expect as far as scenery. We took the long drive up, approximately 180 miles, taking us east along Route 87, initially through quite barren land.

What a difference in topography along Route 87. I learned what a saguaro cactus is (to be honest, Varwig also pointed out other cacti, but those were not nearly as striking). It was fun to personify the different saguaro ... one with two 'arms' facing forward was mother, poised for a hug. Two arms outstretched and reaching for the sky was the ref signaling touchdown.

Towns are few and far between (even fewer and farther would be a big-box store, which ponders whether Amazon Prime members can get delivery). We went well over an hour without so much as a ranch in sight.

After the desert and the cactus, the mountainous views were spectacular although they looked strange to me because I'm accustomed to greenery ... everything was brown out there. Brown rock.

Once we got into the Tonto National Forest there were plenty of pine trees, and we both decided from the landscape we wouldn't know if we were in California or Colorado or Arizona.

The altitude of Prescott is 5,300 feet, which made for a nice respite from the heat in Scottsdale. I know, it's a 'dry heat'.

We met other FCA members for lunch at the Palace Restaurant and Saloon, Arizona's oldest bar, today restored in 1880s décor. The servers were dressed in period costumes adding to the fun, corsets and holsters included. After all, the block is known as Whiskey Row.

We walked around the courthouse plaza and visited a few shops, before returning to Scottsdale via the west route. This provided many more twists and turns on our descent through the mountains than the trip up, tapering off into a fantastic canyon.

Varwig handled it like a pro – it was fun but we forgot to fill up the tank leaving Prescott. The gauge fluctuated to a scary low because of the rapid descent, but when we levelled out it was like the car was 'making gas'.

We stopped at the first gas station, and then had fun racing against the Tirrell's F12berlinetta and the Lombardo's 488 Spider ... all the way back to I-17 and south to the hotel. Just in time for rush hour.

Breaking News Ferrari Unveils the Roma

The Ferrari Roma, the new mid-front-engined 2+ coupé of the Prancing Horse, features refined proportions and timeless design combined with unparalleled performance and handling.

With its distinctive flair and style, the car is a contemporary representation of the carefree, pleasurable way of life that characterised Rome in the 1950s and 1960s.

The approach taken by the Ferrari Styling Centre for the Ferrari Roma's exterior centres around clean design and absolute symbiosis between its various elements with harmonious proportions and pure, elegant volumes. To underscore that formal minimalism, all superfluous detailing has been removed.

The Ferrari Roma represents the pinnacle of performance in this category, thanks to its turbo-charged V8 from the family of engines that has

won the overall International Engine of the Year award four years running.

In this version, the engine reaches 620 cv at 7500 rpm and is coupled with the new 8-speed DCT gearbox that was introduced on the SF90 Stradale.

The Ferrari Roma's chassis benefits from the modular technology developed by Ferrari for its new generation models.

Both bodyshell and chassis have been redesigned to incorporate the latest weight reduction and advanced production technologies.

In fact, 70% of its components are entirely new. The mid-front-engined 2+ Ferrari Roma has the best weight/power ratio in its segment (2.37 kg/cv) which enhances handling dynamics and responsiveness.

THE COBRA-FERRARI WARS 1963-1965. 2nd edition. Signed by the author. The great GT cars and drivers of the mid-1960s. From the book [Bob Bondurant]: "I arrived in Sicily not speaking a word of Italian. My guide was one of the other drivers, Enzo Arena. He picked me up at the hotel, but he didn't speak any English. So we stopped and got an Italian-English dictionary. We were driving to the circuit reading this dictionary. I would hand it over to him, and he would be reading and driving, back and forth, just missing donkeys, carts and scooters." \$49.95 includes shipping in the U.S. 4423
